SLEEP AND SLEEP DISORDER STATISTICS

Home » About Sleep: Tips, Quotes and More » Sleep and Sleep Disorder Statistics »

Below is a compilation of interesting **statistics that relate to sleep and sleep disorders**. From this list, it will be apparent there is significant amount of sleep issues and sleepiness in our society. The public health consequences from sleep disorders and sleepiness are staggering.

Sleep Disorder Statistics:

- 50-70 million US adults have a **sleep disorder**.
- 48.0% report **snoring**.
- 37.9% reported unintentionally **falling asleep during the day** at least once in the preceding month.
- 4.7% reported nodding off or **falling asleep while driving** at least once in the preceding month.
- Drowsy driving** is responsible for 1,550 fatalities and 40,000 nonfatal injuries annually in the United States.
- Insomnia** is the most common specific sleep disorder, with short term issues reported by about 30% of adults and chronic insomnia by 10%.
- 25 Million U.S. adults have **obstructive sleep apnea**.
- 9-21% of **women** have **obstructive sleep apnea**.
- 24-31% of **men** have **obstructive sleep apnea**.
- 3-5% of the overall proportion of **obesity** in adults could be attributable to **short sleep**.
- Percentage of **CPAP** users who are adherent to therapy: 66%.
- Percentage of adults using **melatonin**: 1.3%.
- Percentage of bacteria that **CPAP cleaners** claim to kill: 99%.
- Incidence of **narcolepsy**: 50 per 100,000 people.
- Percentage who reported that snoring improved in bed partner with a mandibular advancing **snoring device**: 70%.

Sleep Deprivation – A Global Epidemic

In just the past 50 years, the average sleep duration has decreased by almost two hours per day. Over the course of a lifespan, that's A LOT of sleep. During the same time period, the medical community has seen a leap in the prevalence of chronic diseases and conditions including obesity and diabetes. Could it be that sleep deprivation is a fueling factor of these epidemics?

According to the National Sleep Foundation, 75% of adults experience daytime sleepiness, and one third believe it interferes with their daily activities. There are many culprits causing this sleepiness. Our 24/7 technology-driven society undoubtedly steals some shut-eye. Anxiety disorders and financial worries keep people awake at night. Sleep disorders like insomnia and sleep apnea also contribute to this sleepiness.

BAD EFFECTS OF LACK OF SLEEP!

IT AFFECTS YOUR
APPEARANCE,
PERFORMANCE,
PHYSICAL &
MENTAL ACTIVITIES!
IT MAKES YOU
IRRITABLE, ANGRY
& TIRED!

DID YOU KNOW? SLEEP DEPRIVATION CAN LEAD TO SERIOUS HEALTH PROBLEMS?

Memory Issues

During sleep, your brain forms connections that help you process and remember new information. A lack of sleep can negatively impact both short and long-term memory.

Mood Change

Sleep deprivation can make you moody, emotional, and quick –tempered. Chronic sleep deprivation can affect your mood and lead to anxiety or depression which may escalate.

Weakened Immunity

Too little sleep weakens your immune system's defenses against viruses like those that cause the common cold and flu. You're more likely to get sick when you are exposed to these germs.

Risk for Diabetes

A lack of sleep affects your body's release of insulin, a blood sugar-lowering hormone. People who don't get enough sleep have higher blood sugar levels and an increased risk for type 2 diabetes

Low Sex Drive

People who don't get enough sleep often have a lower libido. In men, this decreased sex drive may be due to a drop of testosterone levels.

Trouble with Thinking and Concentration

Your concentration, creativity, and problem –solving skills aren't up to par when you don't get enough rest.

Accidents

Being drowsy during the day can increase your risk for car accidents and injuries from other causes.

High Blood Pressure

If you sleep less than five hours a night, your risk for high blood pressure increases

Weight Gain

With sleep deprivation, the chemicals that signal to your brain that you are full are off balance. As a result, you're more likely to overindulge even when you've had enough to eat.

Risk of Heart Disease

Sleep deprivation may lead to increased blood pressure and higher levels of chemicals linked to inflammation, both of which play roles in heart disease.

Poor Balance

Lack of sleep can affect your balance and coordination, making you more prone to falls and other physical accidents.

ROAD DEATHS & ACCIDENTS DUE TO LACK OF SLEEP!

Studies have shown that a large proportion of traffic accidents around the world are related to inadequate or disordered sleep.

Sleep deprivation is a major **cause** of motor vehicle accidents, and it can impair the human brain as much as alcohol can.

WHY A LOT OF PEOPLE HAVE **LACK OF SLEEP?**

01.

Because of shift work, family obligations, or demanding jobs

02.

Because of Technology such as Cell phones, Tablets, Computers, TVs, Wi-Fi, etc.

03.

Money Problems & Family Issues

04.

Anxiety, Worry, Stress & Depression

05.

Medical Problems

06.

Insomnia

07.

Sleep Apnea

08.

Hormone Imbalances

09.

Bad or Old Mattress

BAD OR OLD MATTRESS CAUSES LACK OF SLEEP!

A bad night sleep

You wake up with
neck & back Pain

Hot & Sweaty

Allergies

Snoring

Weak
Immune System

Poor heart health

Memory impairment

Maximizes
Stress Levels

Obesity

BAD OR OLD MATTRESSES

- Collect dust, dust mites, bacteria and other microbes that can lead to ALLERGIES.
- ALLERGIES can cause sneezing, runny noses, itchiness, watery eyes, coughing, and sinus pressure.

OLD MATTRESSES deteriorate its support & comfort.

LACK OF SUPPORT MATTRESS

- 01** Reinforces poor sleeping posture
- 02** Strains muscles
- 03** Does not help keep the spine in alignment

All of which contribute to a lower back pain

According to the National Sleep Foundation, a good mattress lasts 9 to 10 years. But if you don't sleep well anymore, consider replacing it every 5 to 7 years.

SLEEPM HAS A SOLUTION !!!

The Award Winning Innovation Biocrystal Technology

- **01.** It gives you a full night quality sleep
- **02.** It gives you full energy, feel more relaxed and tranquilized
- **03.** Increase your body energy and concentration
- **04.** It Improves your immune system and body circulation
- **05.** It strengthens your muscular system
- **06.** It helps prevent neck pain, chronic and lower back pain.
- **07.** And OVERALL, Biocrystal Mattress improves your Quality of Life!

SLEEPM BIOCRYSTAL MATTRESS

**8 HOURS MEANS 1/3 OF YOUR LIFE IS SPENT IN BED!
WHEN YOU REACHED THE AGE OF 60, YOU SPENT 20 YEARS IN BED!**

LAYERS & MATERIALS OF SLEEPM MATTRESS

Cool Gel Memory Foam

was designed by NASA in the 1970's to improve seat cushioning and crash protection for pilots & passengers. It's made from a substance called Viscoelastic. It is soft and energy absorbent, which minimizes impact.

Biocrystal Mixture

The latest technology from the natural resources; crystals combined with the scientific technology to improve quality of life.

Micro Coils

A hybrid mattress with micro-coils provides better airflow, relieves joint pressure, prevents motion transfer, provides all night comfort for years to come.

Activated Carbon

It absorbs odors and polluted air particles. It also gathers negative ions that promote blood circulation while blocking electro – magnetic waves.

Thai Natural Latex

Milky sap from Thai Rubber Trees.

*Hypoallergenic *Mildew proof
*Anti-microbial *Dust mite Resistant

SLEEPM BIOCRYSTAL PAD

Hand-Tufted Tencel™ Fabric:

PINNACLE OF QUALITY

The hallmark of the luxury mattress. We take the extra time to tuft by hand so that not only you get to sleep longer but your mattress will also last longer.

Supportive Natural Latex:

PRESSURE RELIEVING

Ultimate pressure relief while providing a weightless feel. Environmentally-friendly, hypo-allergenic, anti-microbial, and extremely breathable.

Hand-crafted GOTS-certified Wool:

TEMPERATURE REGULATOR

Regulates your core temperature for the most natural sleeping environment by keeping you warm in the winter and cool during the summer.

Micro Wrapped Coils:

MOTION ABSORBING

Delivers a softer feel and smoother finish to your mattress, while absorbing movement and impact to prevent roll together for ultimate restorative sleep.

Individually Nested Wrapped Coils:

PERSONALIZED COMFORT

9-Series coil system: Independent coils adjust to your body's unique shape for personalized pressure relief and comfort. Tri-Zoned for back support.

ISOTONIC 7-ZONE MEMORY FOAM MATTRESS TOPPER

FILLED WITH BIOCRYSTAL, IDEAL FOR SOMEONE WHO WANTS THE BENEFITS,
BUT PREFERS TO KEEP THEIR EXISTING MATTRESS

With temperature-responsive smart foam containing carbon, an odor neutralizing agent.

Multi-surface design offers additional support and relieves pressure points where needed to relax and comfort the entire body.

Also features cool channel ventilation to permit air flow to cool you as you sleep. The breathable mesh gusset cover & the responsive smart foam provide a cooler night's sleep.

SLEEPM GLOBAL

A slow rebound energy pillow with biocrystals, memory foam & bamboo charcoal magnetism that is ergonomically designed to protect the cervical vertebrae

The parts of the human body that have direct contact with the pillow are the cervical vertebrae. These cervical vertebrae are closely connected to the shoulder, back and waist muscles, ligaments, intervertebral discs, etc., and thus the pillow can have a tremendous impact on human health.

CERVICAL VERTEBRA DISEASE

CHOOSING THE CORRECT PILLOW HAS A CRUCIAL IMPACT ON COMFORTABLE SLEEP AND THE HEALTH OF THE CERVICAL SPINE!

- Unsuitable pillows and incorrect sleeping postures may cause excessive tension on cervical ligaments and muscles, accelerate the degeneration of intervertebral joints and lead to disorders in various body functions.
- The Sleepm pillow not only supports the curved part of the neck, but also the back of the head. Because the lower skull is curved backwards, only with this support can the tissues and other parts of the neck be relaxed and rested.

The cervical vertebra has an inwards curvature called the 'physiological lordosis', which has evolved to be the most comfortable way to maintain this natural anatomical curvature.

You should also maintain the normal 'physiological lordosis', or curve, of the cervical spine during your sleep, in order to meet the anatomical requirements of the cervical spine.

The role of the pillow is to be a cushion under the head and neck when sleeping, so that the cervical vertebrae can maintain the normal anatomical curvature while the person sleeps.

Enabling the neck's skin, muscles, ligaments, intervertebral discs, intervertebral joints, trachea, esophagus, nerves and other tissues and organs, that pass through the neck, to relax & rest along with the other parts of the body while sleeping.

THE SLEEPM CRYSTAL ENERGY
**PILLOW CORRECTS THE
OLD, TRADITIONAL
FAULTS OF THOSE
PILLOWS THAT DON'T
PROPERLY SUPPORT THE
HEAD & HELPS TO
MAINTAIN THE HEALTH
OF THE CERVICAL SPINE.**

01.

The unique shape & design of the pillow edge, effectively supports the cervical spine, & the flatness and firmness of the pillow maintains the correct cervical curvature which helps prevent cervical spondylosis, or wear & tear on the neck.

02.

The rear of the skull has a slightly lower resting point, which is designed to make the head and neck more comfortable during sleep.

03.

As the pillow has different heights on either side, this allows users of different sizes to choose the most comfortable side to sleep on.

04.

Both sides of the pillow core are designed to be slightly higher, so that the upper body weight is shared by the head, neck and shoulders when sleeping sideways, thus avoiding shoulder pain.

YOU NEED PROPER NECK SUPPORT, TOO. THAT IS WHY WE CREATED

SLEEPM BIOCRYSTAL ORTHOPEDIC PILLOWS

Slow Rebound / bamboo charcoal.

Enables the cervical spine to maintain its normal curvature. When the head is placed in the center recess, the pressure on the head, neck & shoulder is completely relieved. The perfect occipital curve design of the pillow surface fits the neck & shoulders in an all-round manner, effectively pulling the cervical vertebra into the correct curve. The bamboo charcoal acts to purify the air, & helps promote blood circulation.

Introduction of Magnetic Function

Greatly improves the microcirculation of the brain, neck and shoulders, and has an auxiliary therapeutic effect on hypertension, headache, dizziness, neck and back ache, neurasthenia, insomnia, disturbing dreams, abnormal cerebral blood pressure, frozen shoulder and cervical pain. Increases the blood flow of the carotid artery into the brain, ensuring the activities of the brain's nerves are orderly, and improves memory. Increasing the oxygen supply to hair follicles can prevent, and assist with the treatments for, various hair loss issues. (Note that magnetic pillows should not be used by people who have had steel plates implanted after internal surgery).

Personalized Control

Either the concave or micro-concave shape can be chosen, according to personal sleeping habits. The height can be adjusted.

Characteristics of the Ice Silk Cloth cover

Because the internal design of the memory foam is similar to that of a sponge, and each cell unit is interconnected to each other, it has excellent moisture absorption, & good air permeability. (Note that memory foam should not be sprayed with, or immersed in, water or exposed to sunlight)

Anti-bacterial & mites

The slow rebound foam inhibits the growth of mold, and eliminates the annoying odor generated by mold growth, which becomes more prominent when there is sweat, saliva, etc.

Absorbing Impact

The force on the head and neck is low, so when you use the pillow, it feels like you are floating on the surface of water, or are in the clouds. There is no pressure on your skin. Sometimes when we use a normal pillow, we may suffer from compression of the ears, but this is not the case with memory pillows.

Changing Shape

The ability to automatically mold to the head comfortably fixes the skull in place and reduces the possibility of a stiff neck. This automatic molding properly fills the space between the shoulders and thus avoids the common problem of air flowing between the shoulders and the pillow. It can also effectively prevent cervical problems. These shaped pillows (also known as butterfly pillows) are a better fit for the shoulders and neck.

Characteristics of the Ice Silk Cloth cover

- Strong & durable
- Very cool to the touch
- Washable

SLEEPM BIOCRYSTAL PILLOWS RECOGNIZED BY

CHIROPRACTOR, CANADIAN NATIONAL FENCING TEAM'S DOCTOR

The Great Crystal Boom of 2017

By CAROLINE TELL AUG. 15, 2017

VG WAYMER

When Emily Satloff stops to hydrate during Pilates, she sips from a water bottle filled with rose quartz and amethyst. The goal? To add a dose of healing to her workout. "I feel calmer while drinking from my crystal water bottle," said Ms. Satloff, the designer of the jewelry line [Larkspur & Hawk](#).

Before bedtime, Nadine Abramcyk, a founder of [Tenoversten](#), an all-natural luxury nail salon, puts her iPhone on airplane mode and covers it with a shungite crystal to reduce radiation. She discovered the ritual in a Google search one sleepless night. "I'm not someone

who can turn off completely, and I was sleeping with my phone by my head and waking up all the time," Ms. Abramcyk said. "Now I sleep much better."

Ana Zawacki lines crystals along the mantel in her bedroom whenever there's a new moon. She also clutches pyrite and citrine when walking to a big meeting or appointment. "They help me to manifest my goals and set intentions for the day ahead," said Ms. Zawacki, a restaurant publicist.

Their use is as old as civilisation itself. The Bronze Age Sumerians made magic

TESTIMONIALS

I have told many people about Sleepm mattress and pillow and how it helped me achieve such great results, so hopefully you will see many badminton players at Sleepm in the future.

Victor Lai
Pan Am Gold Medalist

My Sleepm biocrystal mattress perfectly supports my alignment, & since I switched out from my old mattress, I have found that I recover faster from jet lag. Nothing compares to a good night's sleep, especially after a long flight. Despite what you may think - I usually travel in coach.

Carlos 'The Ronin' Newton
UFC Champion, black belts in six martial arts styles, gold medal 2004 Pankration Demonstr. Olympic Games

As a Taekwondo instructor, I need to have a high energy level in order to be able to withstand straining cardio exercises in classes. The energy boost from the Sleepm topper surely speaks for itself.

Joe Cariati
President of International Ch'ang-Hon Taekwon-Do Federation Dr. of Philosophy in Martial Arts

TESTIMONIALS

During my study on the Sleepm Pillow, Topper & Mattress many clients reported improvement in their Pain as shown in the published study. Martha who experience relief from her pain during the 3 months study. She is able to sleep on her back & sides. before using the topper that was impossible.

PROF. GEORGE GRANT
Ph.D. Univ. of Toronto, 1995.
 Professor, Scientist, Educator,
 Lecturer & Author.

It appears that using the Sleepm Biocrystals helped the subjects to improve their pain, sleep, stress as well as circulation over 3 months testing period. Subjects who reported improvement in their pain, also found less sleep problems including reduced snoring which can lead to sleep apnea as well as rescued stress.

DR. STACEY COOPER D.C.
 Founder of Lifestyle Balance
 Solutions

Clients who reported problem with circulation as a result of diabetic neuropathy have reported slight improvement in their circulation [1-8]. There were no reported negative side effects for using the Sleepm Biocrystals even with clients who were using Prescription or over the counter medications for pain, sleep or diabetes.

DR. CHERYL IVANISKI
 Holistic Wellness Strategist
 5 X BEST SELLING AUTHOR,
 SPEAKER, COACH & EDUCATOR

TESTIMONIALS

"On June 5, 2019, I was in an auto collision, & a large portion of the vehicle was damaged. Luckily, my head was secured by an air bag & was not injured; be that as it may. I was grieved by frenzy & tinnitus. I lay on the SLEEPM mattress & pillow for three days & started working on the fourth day. I could even go to the community in Sudbury, which is five hours away from Toronto, to do a presentation on SLEEPM products. I emphatically recommend that SLEEPM products can without any doubt open up the whole body. And in this way our body manifest the self healing impact."

PROF. DR. EUGENE FUNG
IMD DNM, PhD

After using one month Sleepm's mattress, the hemorrhoid that I've been suffering from is gone. The surgery is not needed anymore.

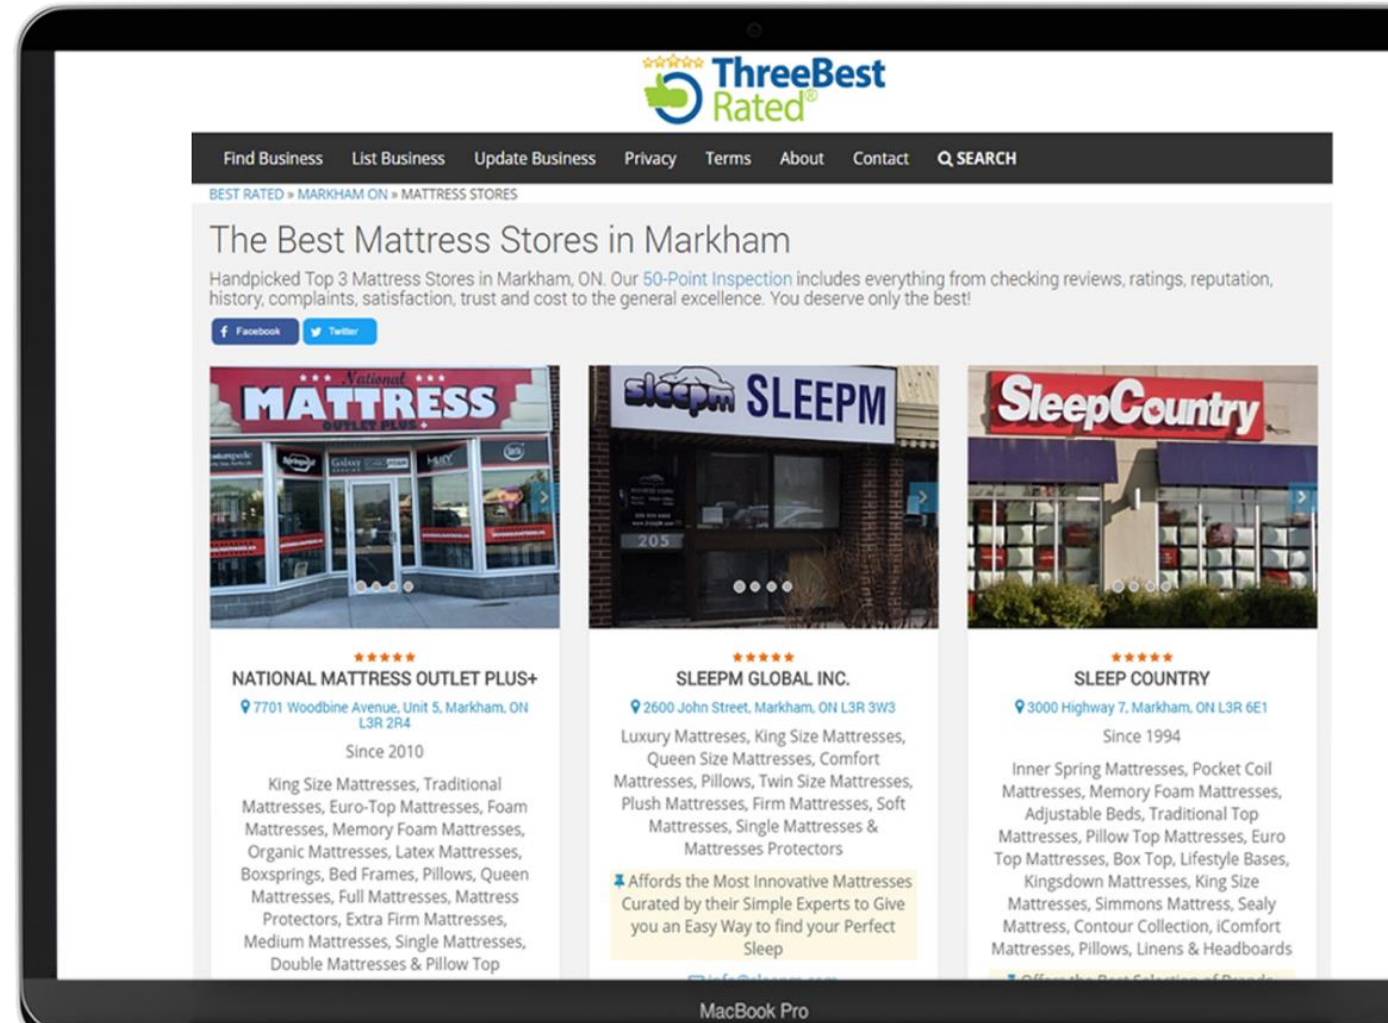

DR. PEIXIANG KAN
Post Doctor, Harvard University

I have dealt with back pain for many years and have yet to find a product to help me. That is, until I discovered Sleepm Biocrystal Products. After using the mattress and pillows, my body began to feel more energized and my back pain eased as the time went by. I highly recommend using these innovative products.

POINTS TO REMEMBER

To maintain your account commissionable, you must have at least one personal sale in one year.

If you don't make a sale in 1 year, your commission will be half.

If you don't make a sale in 2 years, your commission stops until you make a new sale.

While you are not receiving commissions, your account will never be closed and your rank will never be changed.
